

APPLIED ENVIRONMENTAL TECHNOLOGIES, INC.

Date: 04/04/2001

Sheet 1 of 1 **MW-8**

Job#: 0693-01A Location: 2520 Temple Street, Los Angeles

Drilling Company: APEX

Client: Sandra Sholkoff

Drilling Crew: Gerry, Shannon, and Nathan

Geologist: Lorian I. Sanders

Drilling Method: Hollow Stem Auger

Time Start/Finish: 07:17/09:15

Sampling Method: CA Split Spoon

Water Levels/Time/Date: <5.0'/07:30/4-4-01

Surface Conditions: Dirt

Construction Details: 2" PVC 5' Blank, 20' Screen (0.02" Slots)

Depth In Feet	Sample Depth	Moisture Content	OVM ppm*	USCS Code	DESCRIPTION
0				SP	Dirt (excavation backfill).
1					
2					
3					
4					
5	5.0'	wet	0	CL	SAND (SP), dark brown, medium dense (3/5/7), wet, fine and medium grained, moderately
6	(07:30)				graded,
7					
8					Grayish-brown, some small gravels.
9					
10	10.0'	wet	--		SILTY CLAY (CL), medium brown, soft (2/3/4), wet, moderate to strong odor.
11	(07:38)				
12					
13					
14					
15	15.0'	moist	--		CLAY (CL), light yellowish-brown and olive brown, stiff (4/6/8), moist, some caliche, no
16	(07:43)				odor.
17					
18					
19					
20	20.0'	dry	--		SANDY SILTY CLAY (CL), light yellowish-brown, stiff (3/5/9), dry, very fine grained sand,
21	(07:50)				very poorly graded.
22					
23					
24					
25	25.0'	dry/moist	--		SANDY SILTY CLAY (CL), light to medium brown, very stiff to hard (10/15/20), dry to
26	(07:55)				moist, very fine grained sand, very poorly graded.
27					
28					Boring terminated at 25.0'.
